DATES & DETAILS!

Who is this course for?

For ultimate beginners in robotic surgery.

What will I learn?

A basic technical skills curriculum, developed by the proficiency-based progression methodology. You will get trained in an objective, transparent & evidence-based way, resulting in a shorter learning curve.

Who will I learn from?

Prof. Dr. Alexandre Mottrie
AZORG Hospital, Aalst, BE
Off-site course director

Orsi Robotic Experts
PBP-certified trainers

Prof. Dr. Niki Rashidian
UZ Ghent Hospital, Ghent, BE
Co-Medical Director of Orsi Academy

Included in your course

- Pre-course e-learning
- Course materials
- Use of procedure-specific training models
- Certificate of proficiency in the lab
- Certificate of attendance
- CME credits
- Access to the Orsi Academy network
- Lunch and coffee breaks

Training models

Chicken model

Realistic tissue handling for safe, repeatable practice of core robotic skills.

Timeline

DAY 1

08:30 Hands-on training on chicken model

- Basic device training on a da Vinci platform
- Suturing & knotting practice
- Dissection practice
- Dissection and coagulation practice

13:00 Lunch at the Orsi restaurant

14:00 Hands-on training on chicken model

- Suturing, knotting, dissection and coagulation practice
- Proficiency demonstration on ongoing bases
- Video-recording of proficiency assessment

17:00 End of the day

DAY 2

08:30 Hands-on training on chicken model

- Suturing & knotting, dissection and coagulation practice
- Proficiency demonstration on ongoing bases
- Video-recording of proficiency assessment
- Standardized way to perform an intracorporeal anastomosis by hand-swen or robotic stapling

13:00 Lunch at the Orsi restaurant

13:45 Hands-on training on chicken model

- Standardized way to perform an intracorporeal anastomosis by hand-swen or robotic stapling

17:00 End of the day

PBP CERTIFIED COURSE

At Orsi Academy, we help you improve surgical outcomes through advanced training and education. Our Proficiency-Based Progression methodology gives you a clear, structured and objective pathway to truly mastering surgical skills. Step by step, you'll grow toward the highest level of expertise.

Scientifically proven

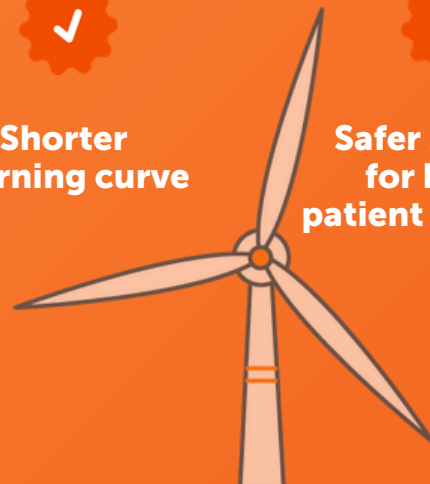

Transparent & fair assessment

Shorter learning curve

Safer surgery for better patient outcomes
